**Subject:** South Dayton Dump - proposed agenda topics for May 23 meeting  
SDD - proposed agenda topics - 051914.docx

Hello Maddie –

Please find attached a proposed list of agenda topics for our meeting this Friday. These strategic issues have generated much discussion with our team as we have reviewed the OU1 and OU2 documents from the PRPs. We hope that our team can work through these issues in the allotted time and result in a clear path forward for future technical reviews and interactions with the PRPs.

CH2M HILL will facilitate these open discussions by taking notes and keeping to our schedule, and by documenting our reaching a consensus on these issues. We are utilizing a large conference room on **the fifth floor of our building**, and will have computer and projector capabilities as well as access to all site related files. Please let us know if you would like to have anything specific on-hand for our meeting, either in electronic form or hard copy print out. Also please feel free to propose updates to the attached agenda.

We suggest meeting on the fifth floor at 8:30 AM, but please let us know if you recommend a different start time.

#### Attendees

USEPA - Leslie Patterson

OEPA – *please let us know, Maddie*

CH2M HILL - Dave Boehnker (hydrogeologist) and Brett Fishwild (project manager); and Barrie Selcoe (risk assessor) by telephone as needed

Thank you.

**Brett A. Fishwild**

Associate Project Manager

Geologist
